Backup and Restore-as-a-Service

[Call for details](#)

A centrally managed data protection solution for local and cloud backup with your choice of cloud storage: NovaBACKUP Cloud, on-premises servers, or data centers of your choice - or any combination thereof. With multi-tenant access, you can scale your backup-as-a-service to support anywhere from one to a thousand clients. End-to-end AES-256-bit encryption ensures that your data can't be accessed by ransomware or other malicious attacks.

Usage-based pricing; starting as low as 100€ /month

Backup for Microsoft 365 Backup and Archive

[Call for details](#)

Backs up and archives data from Microsoft 365 applications, including Mail, Calendar, Contacts, Tasks, Groups, Teams, OneDrive, and SharePoint. It comes with a simple and easy-to-use web-based interface for multi-user access and relevant insight into email analytics. Your and your customers' data is AES-256 encrypted in transit and at rest, and stored in compliant data centers.
