RELIABLE RESTORE

Improve backup health and speed up restores.

NovaBACKUP

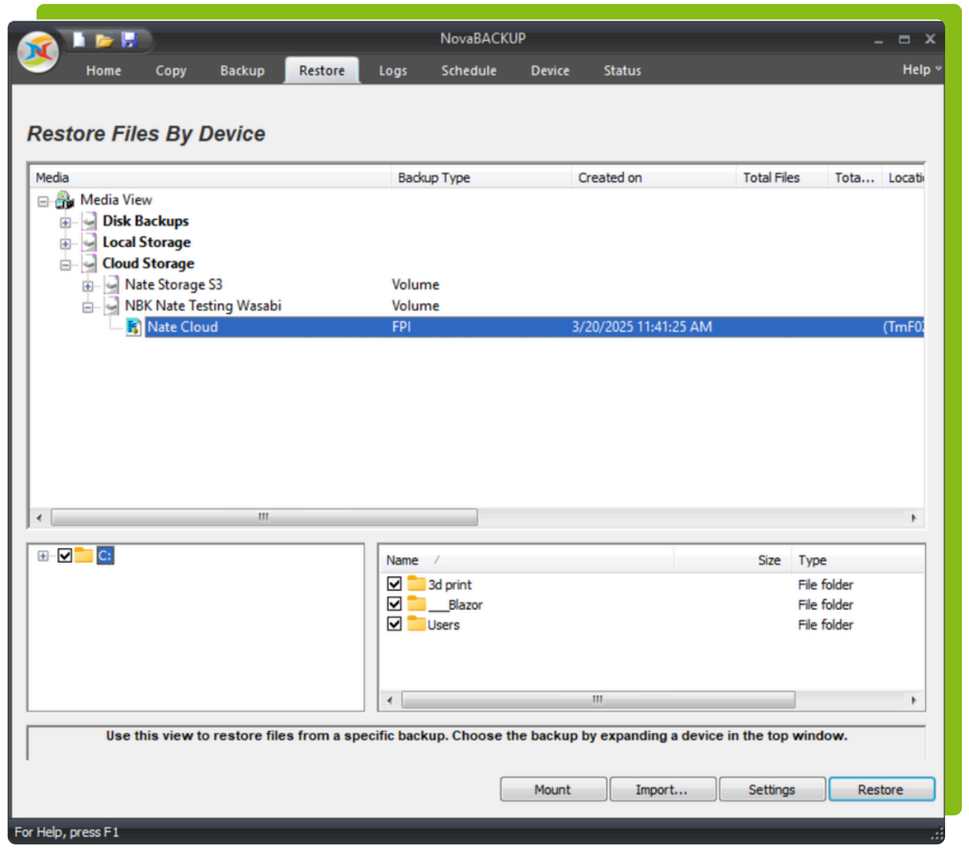
RELIABLE RESTORE

NEW Backup Mounting

Mount any backup, so you can get a quick overview of the contained files.

Use Case: An accidentally deleted file is needed ASAP -> mount the backup and copy the file without waiting for the restore to complete.

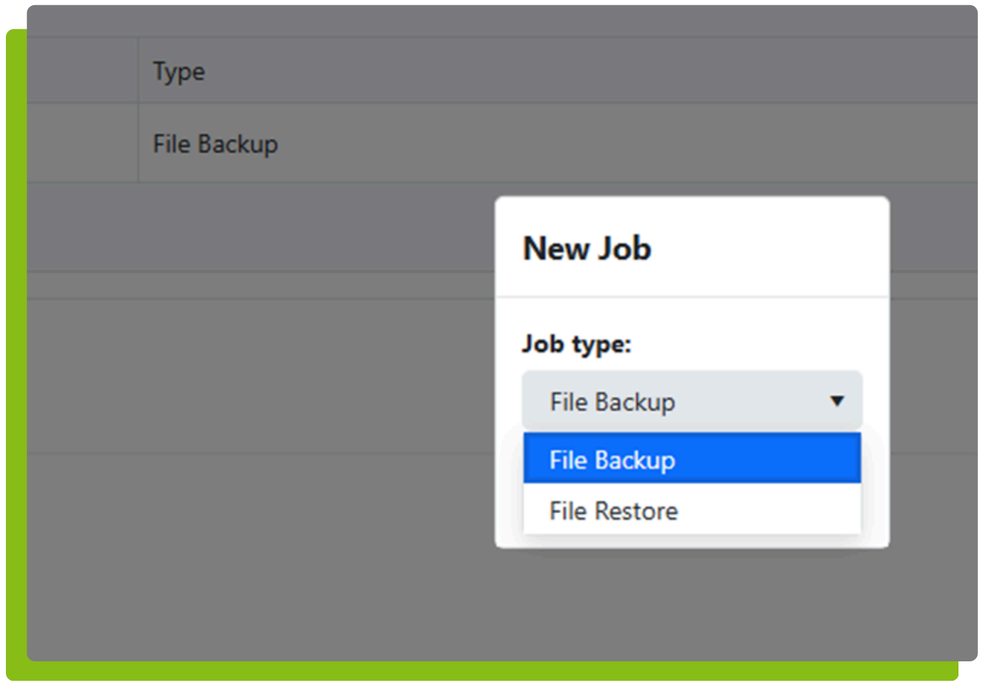
Use Case: Quick check of the backup's integrity.



NovaBACKUP

RELIABLE RESTORE

Restore Jobs in Central Management



Before: Manually connect to the local agent or travel to its actual location to be able to restore a file or a system.

Now: Initiate restores from the Central Management.

No more waiting for your customer to be available, no wonky connection - simply start your data recovery immediately.

NovaBACKUP

RELIABLE RESTORE

Backup Integrity Checks

Additional checks that improve backup health and reduce the risk of failed restores.

Automatically check if there are files missing on the backup storage and **requests those missing files** with the ongoing backup if that’s the case.

or

If there’s more data on the storage than is listed in the index, it will **correct the backup index** accordingly and make sure the backups are restorable.

NovaBACKUP

RELIABLE RESTORE

Restore Speed Improvements

Enhanced how the initial scanning and the backup data itself is handled during a restore which significantly reduces the time it takes to restore a backup file – no matter if it is a backup stored on a local storage or in the cloud.

NovaBACKUP

TRANSPARENCY

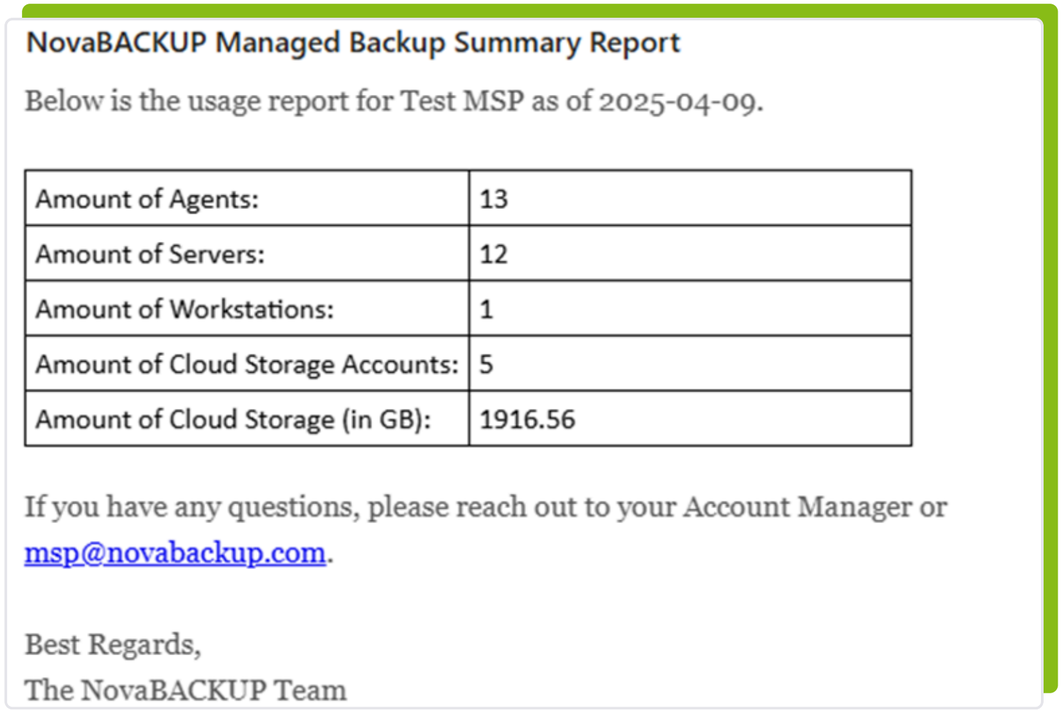
Usage reports, export more information for easier billing, and bulk data handling.

NovaBACKUP

TRANSPARENCY

NEW Weekly Usage Reports

Weekly usage report via email with details about the number of agents that are connected to your service and how much total cloud storage is being used.



NovaBACKUP Managed Backup Summary Report

If you have any questions, please reach out to your Account Manager or msp@novabackup.com.

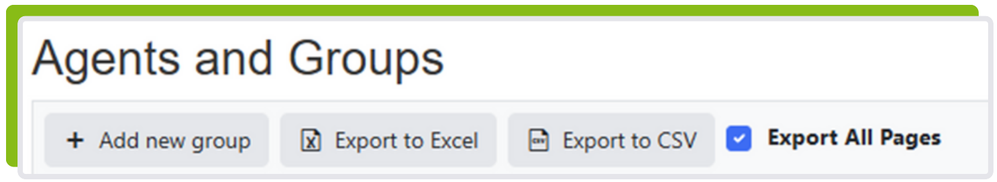
Best Regards,
The NovaBACKUP Team

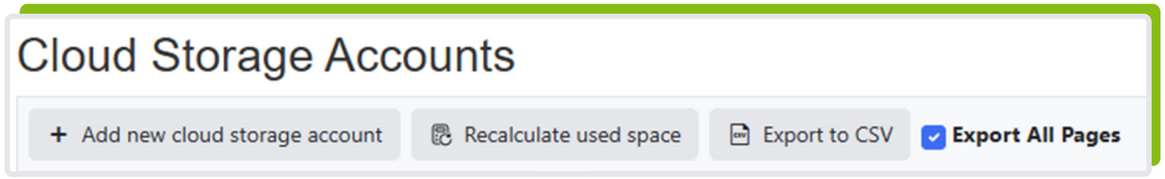
NovaBACKUP

TRANSPARENCY

Export Agent and Cloud Data to Excel/CSV

Download the list of agents and their groups as well as the cloud usage per device as Excel or CSV file and share that with your team.



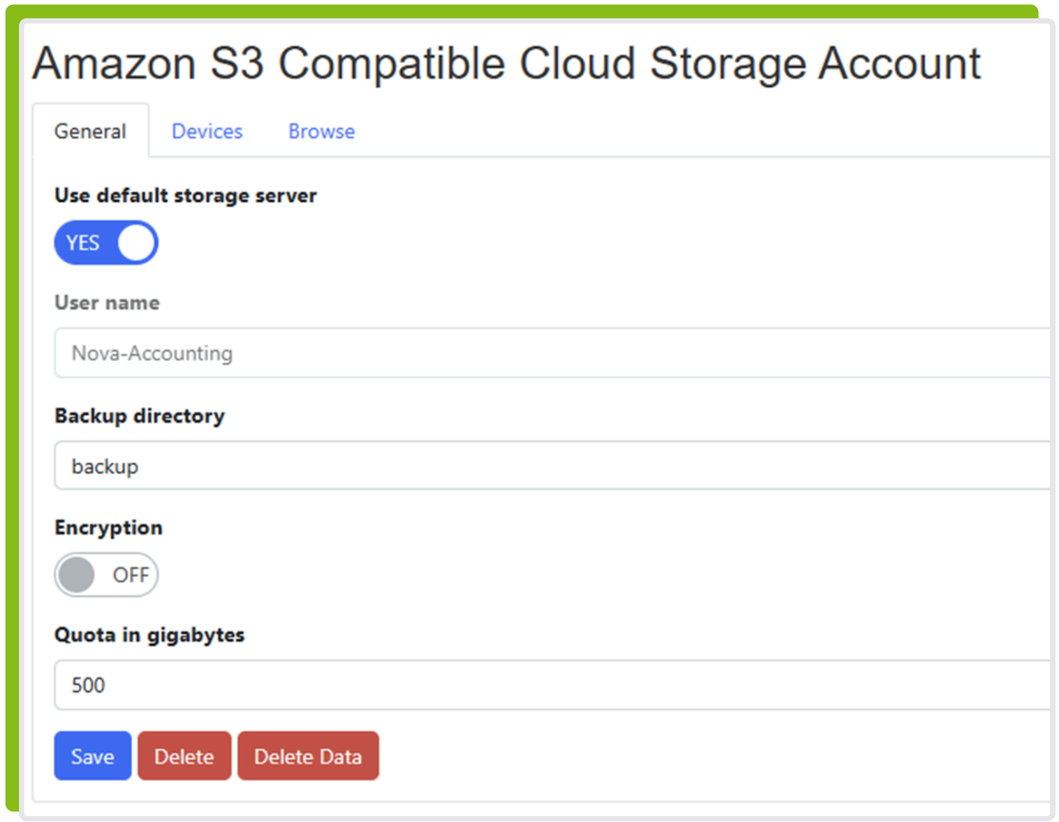


Cloud Storage Account	LastBackupDate	UsedBytes (in GB)
B - Kunde 1	1/12/2025	2.407519263
B - Kunde 2	1/12/2025	297.7946255
G - Kunde 1	1/12/2025	134.0916023
G - Kunde 2	1/12/2025	51.96573852
P - Kunde 1	1/12/2025	2182.075378

NovaBackup

TRANSPARENCY

NEW Bulk Cloud Deletion



Bulk delete any Cloud Storage Account and data stored in the cloud.

NOVABACKUP

FURTHER ENHANCEMENTS

Behind the scenes improvements.

NovaBACKUP

FURTHER ENHANCEMENTS

- **UI framework upgrades**: Faster performance with minimal visual changes.
- **Retention improvements**: Optimized retention rules to handle edge cases and orphaned files.
- **Restore view update**: To prevent restore failures due to outdated files, only backups available within the retention settings are now displayed.
- **Bug fixes**: Numerous stability and performance fixes.
