CLOUD SOLUTIONS

[Learn more](#)

Cloud-Storage for Efficient Offsite Backup

NovaBACKUP Cloud is an end-to-end encrypted cloud storage solution that lets you easily and efficiently back up your data to an offsite location. Create an additional layer of protection against today's security threats by simply adding it to your NovaBACKUP Server or Business Essentials license. NovaBACKUP PC already includes 1 TB of Cloud Storage. Datacenters are available in the United States, Canada, and Germany.

Options Starting at 100 GB

Backup and Restore-as-a-Service

 [Call for details](#)

A centrally managed data protection solution for local and cloud backup with your choice of cloud storage: NovaBACKUP Cloud, on-premises servers, or data centers of your choice - or any combination thereof. With multi-tenant access, you can scale your backup-as-a-service to support anywhere from one to a thousand clients. End-to-end AES-256-bit encryption ensures that your data can't be accessed by ransomware or other malicious attacks.

Usage-based pricing; starting as low as \$40 /month
